PERSONAL SUMMARY

I am a PhD candidate at the University of Oxford investigating processes of change in cognitive therapy for Posttraumatic Stress Disorder (PTSD). Testing the theoretical models underpinning cognitive therapy for PTSD has strengthened my understanding of the importance that clinical interventions are rooted in empirical science and continually evaluated and refined through research. I appreciate the importance of innovative research projects testing and evaluating technological advances in health care, particularly in clinical psychology. I value, advocate, and implement open science practices in my work. In addition to my research interests I am enjoying to create open-source software tools that help to visualise and analyse data as well as creative work like filming and editing videos.

EDUCATION AND QUALIFICATIONS

University of Oxford DPhil in Experimental Psychology at the Oxford Centre for Anxiety Disorders and Trauma Thesis: Processes of Change in Cognitive Therapy for Posttraumatic Stress Disorder Supervised by Prof. Anke Ehlers and Prof. David M. Clark	<i>October 2016 - Present</i>
Technische Universität Braunschweig MSc in Psychology Study focus: Clinical Psychology	August 2013 - September 2015
Technische Universität Braunschweig BSc in Psychology	August 2011 - September 2013
University of Groningen BSc in Psychology	September 2010 - August 2011
DRK-Rettungsschule Goslar Rettungssanitäter (in English 'Paramedic')	July 2008 - March 2009
